Conflict Minerals Statement 2017

As you may be aware the provisions of Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act require certain companies to disclose the use of “conflict minerals” in their products (i.e., certain minerals including tin, tantalum, tungsten and gold, that may have originated in the Democratic Republic of Congo or adjoining countries). While we are not regulated by this Act, we provide this statement to our customers who request our assistance in assessing their “conflict mineral” status.

We take very seriously concern that profits from conflict minerals may be fueling human rights violations, labor abuses and environmental degradation and are committed to the ethical sourcing of any minerals used in our products. Following a good faith diligent inquiry, we do not have any reason to believe that our manufacturing facilities use any ‘conflict minerals.’

We hope this information is helpful to you. If you have any questions or would like to discuss any of these issues further, please do not hesitate to contact us.
